

M. Sc. Data Science Project Work Evaluation Rubrics (12 Credits)

Zeroth Review (10 Marks) during 27th-29th March 2026

Criteria	Weightage	Indicators
Problem Identification & Relevance	4	Clear problem statement, aligned with specialization, managerial/industry relevance.
Objectives & Scope	3	Well-defined objectives, feasible scope, SMART approach.
Methodology/Approach	3	Clarity on proposed methodology (survey, case study, secondary data, analytics, etc.).

First Review (20 Marks) during 25th-27th April, 2026

Criteria	Weightage	Indicators
Literature Review & Theoretical Background	8	Depth of review, use of quality sources (ABDC/Scopus journals, reports), conceptual framework.
Research Design / Project Plan	6	Sampling plan, tools identified, milestones clarity.
Presentation & Clarity	6	Clear communication, logical sequencing, professional formatting.

Second Review (20 Marks) during 29th-31st, MAY-2026

Criteria	Weightage	Indicators
Data Collection Progress	6	Authenticity, adequacy of data collected, proper tools used
Analysis & Interpretation (Preliminary)	8	Use of appropriate statistical/analytical tools, logical interpretations
Consistency with Objectives	6	Work progress aligned with original objectives and scope

Final Viva-Voce (50 Marks) After FAT examinations 03rd-05th July,2026 (Tentatively)

Criteria	Weightage	Indicators
Report Quality (Structure & Content)	10	Executive summary, introduction, objectives, methodology, analysis, findings, references (APA)
Depth of Analysis & Use of Tools	10	Use of advanced tools (Excel, SPSS, Python, R, NVivo, Tableau, Power-Bi,etc.), critical insights
Findings, Conclusions & Managerial Implications	10	Practical applicability, originality, link to industry problems, clarity in conclusions.
Presentation & Defense	10	Confidence, communication skills, ability to justify methodology/findings.
Contribution & Innovation	10	Novelty in problem-solving, innovative approach, alignment with specialization.
